

CPT SOFTGEL TOOLING

BEST SOFTGEL TOOLING IN THE INDUSTRY

High Quality & Long Life

CapPlus is the softgel encapsulation expert. Our softgel tooling is made from the highest quality materials for long life and ease of use. Each set is custom designed for specific client needs regardless of softgel machine make and model. And, we promise a two week turnaround to keep you up and running.

A Closer Look

Stainless steel shaft guides in each die roll provide easier installation

Teflon® Ceramic coated aluminum wedge provides faster heat-transfer

"Gasket free" Teflon® distribution plate improves regulatory compliance

Colored timing marks on the front of die rolls make it easier to be precise

Harder aircraft grade aluminum provides less wear and longer life

"Bead blasting" the space between pockets minimizes gel adhesion
