

# CPT 200

## CAPSULE POLISHER & SORTFAST

### Adjustable, fast, “must have” for capsule production

The CapPlus CPT 200 is the industry standard for capsule polishers. It is fully adjustable, fast, and an absolute “must have” for manufacturers that want state-of-the-art capsule production. Unlike competitors polishers made from sheet metal that fall and get damaged (ding!), the CPT 200 is “Built like a tank!” - Constructed from hard stock stainless steel and anodized aluminum.

#### A Closer Look

- *Sturdy anodized aluminum construction equals long life!*
- *“Easylock” nylon brush is FDA approved and makes installation and removal simple*
- *All stainless steel contact parts and polishing tube*
- *Infeed end cap is designed to ensure that 100% of capsules are removed from cleaning chamber*
- *Economically priced and in-stock for speedy deliveries*

FDA approved nylon brush  
Built “like a tank”  
In-stock for speedy delivery

\* Shown with optional CPT SortFast

### Advantages

“Easy tilt” hand-crank designed for easy adjustment of cleaning angles

Components disassemble in less than 60 seconds

Compact design requires less space but includes the same cleaning efficiency as larger polishers

Non-marking rigid, swivel casters

Heavy duty sealed ball bearings

Vari-control motor drive

Clear anodized aluminum frame

Heavy duty rubber fasteners

Hinged access doors prevent damage from constant removal

Removable brush from shaft reduces replacement brush cost

Easy to retrofit to Ultra 8, PD8, Type 8 and Qualifill semi-automatic machines

Built in the USA

### Specifications

**Type** Automatic

**Dimension** 36”(H) x 32”(L) x 18”(W)

**Weight** 72 lbs

**Power** Motor 1/4 hp permanent magnet.  
Variable speed. 115v/1ph/60 cycle

**Capacity** Rated up 300,000 capsules per hour

**Optional CPT Sortfast**  
Engineered to remove empty, broken and separated capsules

**CPT Feeder**  
Product flow controlled by adjusting pneumatic vibrator and gate opening

**CAPPLUS**  
TECHNOLOGIES

## CPT Sortfast

The CPT Sortfast is engineered to remove empty, separated and major under weight capsules. The unit can be mounted on the discharge of a capsule polisher, filling machine, or used as a stand alone device. It will sort up to 120,000 capsules per hour.

Special features include

- *Hard anodized aluminum construction*
- *No moving parts*
- *Stainless steel contact parts*
- *Disassembles into three sections for easy cleaning*
- *Adjustable angle ejection chute*
- *Requires 80 PSI line pressure and uses 32 PSI regulator setting for #0 capsules*
- *Standard .250 "Quick release" airline fitting*
- *Flexible rubber fasteners for easy disassembly*
- *Disassembles in less than 60 seconds*
- *Removable faulty capsule receptacle*
- *Production rate of 120,000 capsules per hour*

### Specifications

**Dimension** 18.75"(H) x 9.35"(L) x 4.0"(W)

**Weight** xx lbs

**Capacity** Sort up 120,000 capsules per hour

## CPT Bulk Feeder

The CPT Bulk Feeder is engineered for customers who polish capsules or tablets in batches. Product flow is controlled by adjusting the pneumatic vibrator and gate opening over the bulk feeder.

Special features include

- *Hard anodized aluminum construction*
- *Pneumatic vibrator control*
- *Adjustable gate*
- *1.2 Cu. Ft Bulk Feeder fits easily over CPT 200*

### Specifications

**Dimension** xx"(H) x xx"(L) x xx"(W)

**Weight** xx lbs

**Capacity** Holds up xxx capsules
